About Tailor-made Courses

We are able to modify all our courses according to your groups size and participant's needs and age. All our tailor-made Finnish courses include culture studies according to the season and the wishes of the participants.

We have been teaching Finnish for foreigners for over 40 years already and were, in fact, the first institute in the City of Oulu to offer Finnish courses for foreigners. At the moment, we have the following ongoing courses for the foreigners living in Oulu region:

Finnish for Beginners

Intermediate Finnish for Foreigners

Advanced Writing and Conversation Course in Finnish

Advanced Grammar Course in Finnish

Our tailor-made Finnish courses will be customised for each group individually. If the participants already have studied Finnish, we will send an online test for them beforehand to evaluate their language level in order to prepare right kind of material. The course will include participation in different kinds of other courses where the participants will study with our Finnish adult students e.g. handicrafts, painting and other forms of art, cooking, music etc.

Participation in our normal community college courses will be available during the teaching terms: beginning of September – end of November and beginning of January – end of April. Our normal courses are held mainly in the evenings so this allows participants to choose various activities after the group's own language lesson during the daytime. Or lesson can be in the evening as well. We can customise the course programme, duration, content and everything according to each group.

In addition to immersion in the Finnish language, the courses offer students immersion in Finnish culture and education and cultural and social exchange with locals.

Tailor-Made Finnish Courses at Oulu-opisto

Oulu-opisto is a community college owned by the city of Oulu. It is the third-oldest and currently fourth-largest community college in Finland. It was founded 110 years ago and provides nearly 50 000 hours of teaching annually. The community college is open to all ages and groups, but the vast majority of our students (76%) are adults.

We have 32 full-time staff members and almost 300 part-time teachers. We are a prolific provider of adult education and a major employer too, with over 12 100 students total. Oulu-opisto has six departments of instruction: languages, music, visual arts, handicrafts, sports and wellness, dance and theater, as well as lectures and other subjects (home economics, interior design, environment, history etc).

Season: August-June
Duration: as agreed
Age: adults
Group size: as agreed

Price: depends on hours of teaching
e.g. 690 euros/student/30 hours of teaching
e.g. 1300 euros/student/60 hours of teaching

The price also includes:

- materials
- morning coffee/tea
- lunch

Optional:

excursions to nearby locations available upon request;
costs are not included in the course fee
